

I think the school Halloween was so much fun! I enjoyed it very much!

First we discussed the Halloween words and after that the party started! There were six rooms where we could play games or tasks. And if you did 4 tasks you could get a present!

Me and my friend went to the crossword room first. It was pretty fun because I learned many new words and we laughed a lot!

The next room was one of my favourite rooms! There were two plates full of spooky paper animals and we needed to get in pairs. The first person took one animal with a straw and ran to the other plate. Both members of the pair had to do this. I loved it!

The next room was a creative room. We made a Halloween themed origami. It was relaxing.

After that we visited the dancing chair room. It was a very good task, I enjoyed it, too!

After this very exhausting but also very good game, we visited the rhyme room. There were half-finished paper tombstones and we needed to find their pairs by what rhymed for it. It was a chill game, too. I liked it!

Finally, we went to the Kahoot room. I love Kahoot. It's always a very exciting and fun game, so I was not disappointed this time either!

After we tried all six games. Me and my friend visited the place where we were for the present. We got some sweets! We were so happy, because who doesn't love sweets?

I loved the Halloween party. I hope the English teachers will do it next year again! I will come!
