

The Olympic Games

The first Olympic games were in 776 BC. The Olympic games are in every four years.

People all around the world are competing in different kind of sports for bronze, silver or gold medal. Every country sends their best competitor for the Olympics. They start the Olympic games with a famous ceremony and light the Olympic fire. In every country, almost everyone supports their competitor in front of the tv.

The Hungarians are best at swimming and water sports, they earn a lot of gold medals almost in every 4 years. In Hungary, a lot of people cheer the Hungarian competitors. My family is a big fan of the Olympic games too, our favourite sport is swimming and ice skating.

Once in my lifetime I want to be a sportsman good enough to participate in the Olympic Games.
